

Research & Development Cell

The Centre for Research and Development of ARUNACHALA College of Engineering for Women is mainly focused on conducting quality research and producing outcomes such as research publication in SCI / Scopus Indexed Journals and, Patent (product, process or design),. The Centre for Research and Development guides Faculty members and Students in applying for research projects to various funding agencies.

To foster a research atmosphere among the faculty members, Our Management is providing incentives for Paper Publication, Research Projects and Patents (granted, published and design patent).
